

# Monthly Newsletter

## Here's what has happened in the last month and what's to come!

Fall is in the air and we want to thank you to everyone who joined us for the CNY APWA Scholarship Golf Tournament at Beaver Meadows in Phoenix! It was a fantastic day filled with great company, friendly competition, and perfect weather.

We truly appreciate the support from all participants and sponsors in helping us raise funds for our scholarship program.

Looking ahead, our September event will be held at EJ in Phoenix, NY. We're excited to offer a PDH course focused on hydrants and valves, followed by lunch. Weather permitting, we will also be conducting live hydrant and valve demonstrations. Additionally, for those who haven't visited the facility before, there will be an optional tour of the EJ manufacturing facility.

We are looking for project tours for our 2025 meeting schedule. If you have a project that has recently concluded, this is a great opportunity to show off your hard work. Please reach out to [cnyapwa@gmail.com](mailto:cnyapwa@gmail.com) to get your tour on the schedule.

We would like to remind everyone that our newsletter each month features a "Sponsor Spotlight". If you choose to sponsor, your company will receive a full-page ad in a future newsletter.

These sponsorships are essential in maintaining our programs and scholarships at the Branch level. Please consider becoming a sponsor. The sponsorship application can be found in this newsletter.

If you or someone you know is looking for employment opportunities in or related to public works, check out our "local employment opportunities" section.

We hope to see everyone at the EJ event. Have a happy and safe September!

# Request for 2025 PROJECT TOURS

CNY APWA is currently looking for meeting ideas and opportunities to tour recently completed construction projects in our region. If you or your organization have wrapped up a project—large or small—or are involved in interesting day-to-day operations that showcase innovation, engineering, or public works in action, we'd love to set up a tour!

Great candidates could include park improvements, infrastructure upgrades, facility tours, or even unique routine operations. In the past, we've visited parks, toured trails, participated in lock pump-outs along the Erie Canal, and more.

If you have a tour that you think would be a good fit for our needs, please reach out to [cnyapwa@gmail.com](mailto:cnyapwa@gmail.com) to get your tour on our 2025 meeting schedule!
